Fragmentum Donati

Literis fixis sive in Tabulis impressi
constans 28. Lineis
in pergameno in 4o.

Adhæsit hoc Fragmentum Ligaturæ Antiquissimæ Sermonum Roberti de Licio de Laudibus Sanctorum impressorum Antwerpiæ per Gerardum Leeu anno 1490 kalendis Martiis in 4o.

Hæc Donati pars similis est exemplaris quod Daventriæ ad. servatur in Bibliotheca Publica urbis, quod mihi non longe post annum 1480 et forte Daventriæ videtur impressum

cf. Koning. pag. 111-112. et Tabula IV. No 1.

By eene vergelyking met het Deventer ex. op 27 Oct 1857 is my gebleken dat dit fragment behoort tot fol. 10 van eenen Xylogr. Donatus, regel op regel met dat Deventersch exemplaar overeenkomende, maar van verschillende druk.

Dit fragment der 3e. Haarlemsche editie van Donatus heeft ge-
dient tot een schutblad van eene oude leere band, in 4o. waar in gebonden
waaren het Tractatus Sancti Augustini epi de Fuga mulierum
en verscheide anderen zonder plaats of datum, doch volgens de
letters gedrukt te Ceulen by Ulric Zell voor 1470. hebbende
dien band vol tractaten en noch vier andere dergelyke banden, in welker
eene ook gevonden word de Augustinus de Singularitate Clericorum
in 1467 gedrukt, alle behoord aan ~~het~~ de kloosters der Sioniten en Brigetten
voorn. stad, van waar dezelve ~~aan my~~ in mijne handen gekomen
zijn.
Hier uit meen ik te mogen opmaaken (1o. dat) de voorn. Haarlemsche
Donatus voor 1470 gedrukt, ook te Ceulen in de scholen is ge-
bruikt geweest, dewijl na alle waarschijnlykheid die tractaten
aldaar gebonden en bewaard zijn, immediaat na dat van de
persse gekomen zijn. 2o dat die banden gebonden zyn op de
winkel of door de boekbinders van Ulric Zell, welke ~~zeer~~
in correspondentie moet geweest zijn met de Haarlemsche drukkerije
uit welke hem de exemplaren van Donatus tot gebruik der jeugd
zullen zijn toegezonden, ~~weshalven~~ 3o. dat het in 't geheel niet te ver-
wonderen is, dat Zell eene genoegsaame kennis gehad
heeft van de uitvinding der druk-kunst te Haarlem, als
hebbende aan den Kronykschryver van Keulen verhaald, dat
die van Mentz de eerste beginselen hunner drukkonst geleerd
hebben uit de Donatus te Haarlem gedrukt, het geen van eene
voorgere uitgaaf dan deze moet verstaan worden, dewyl aan
hem Zell zullen bekent geweest zijn alle de vorige uitgaven van
Donatus. 4o. dat men niet behoeft verwondert te wezen, hoe in
den korten tyd van de uitvinding der konst tot voor 1470 drieder-
hande uitgaven van Donatus te Haarlem voor den dach gekomen zijn,
dewyl dit schoolboek niet alleen in de Nederlanden maar ook
buiten 's lands zeer sterk is getrokken geweest, waaromme het
zelve meenigmaal op de persse is gelegt. Ook moes de Haar-

laemsche drukkerye gedurende tyd, zelfs by het leven van Laurens Janszoon
eene zeer groote aftrek gehad en overal bekent geweest zyn, dewyl
Hadr. Junius getuygt, dat Laurens daardoor binnen korten tyd
zeer ryk geworden is: Ook zullen er zeer waarschijnlyk meer andere
dan de reedts bekende boeken gedrukt zyn, welke de tyd heeft verduysterd, en waar van men de overblyfsels vroeg of laat nog
wel ontdekken zal in oude Bibliothequen, alwaar de vroegste
nederlandsche edit of andere editien in hunne eerste banden bewaard
worden.

Dat dit nu een overblyfsel is van de 3e Donatus, blykt, omdat
't zelve ook gedrukt is met 28 Regels op eene pagina, en
dat de letters de zelfde zyn als de 3e Donatus door den Heere
Meerman beschreven. Het begint met de woorden uit de
vierde conjugatie

en eindigt met
